

Adding a Picture to Your Site

1. Click on the Action Tab in the left corner, to get this menu

2. Click on Edit Page, which brings up the editing tools. The insert tab allows you to insert a picture and a link.

3. You can upload your picture from your computer by browsing or by just typing in the address.

4. Once the picture is on your site, you can click on the picture to bring up the picture tools and from there you can position your picture and change your picture.
